| <input type="radio"/> upper cervical     | <input type="radio"/> cervicothoracic        | <input type="radio"/> thoracic      | <input type="radio"/> thoraco-lumbo-sacral | <input type="radio"/> lumbo-sacral | <input type="radio"/> coccyx |
| <input type="radio"/> mid lower cervical | <input type="radio"/> cervico-thoraco-lumbar | <input type="radio"/> thoracolumbar | <input type="radio"/> lumbar               | <input type="radio"/> sacral       |                              |

## Follow-up

Day  1  2  3  4  5  6  7  8  9  10  11  12  13  14  15  16  17  18  19  20  21  22  23  24  25  26  27  28  29  30  31

Month  1  2  3  4  5  6  7  8  9  10  11  12    Year  00  01  02  03  04  05  06  07  08  09  10  11  12  13  14  15  16

### Follow up interval

- 6 weeks     1 year
- 3 months     2 years
- 6 months     other .....

### Work status

- not at work since OP     resumed work, different job     housewife
- started partially, same job     has been dismissed     child/student
- fully reintegrated     retired since OP     other .....
- resumed work, but quit again     retired before OP

Only comment on those goals/measures which were indicated for the "Goal of surgery" question on the "SURGERY" form.

### Surgical goals/measures achieved

- none
- pain relief
- functional improvement
- neurological improvement
- cosmetic improvement
- diagnostic measures
- other .....

### Surgical goals/measures partially achieved

- none
- pain relief
- functional improvement
- neurological improvement
- cosmetic improvement
- diagnostic measures
- other .....

### Surgical goals/measures not achieved

- none
- pain relief
- functional improvement
- neurological improvement
- cosmetic improvement
- diagnostic measures
- other .....

### Medication

- none     steroids     antibiotics
- NSAIDs     antidepressives     other .....
- opiates     vitamin B complex

### Overall outcome (examiner)

- not applicable     good     poor
- excellent     fair

### Rehabilitation

- none     outpatient rehab / physio     other .....
- home-based     inpatient rehab / physio

### Decision

- no further follow-up     revision foreseen
- further follow-up     other primary intervention foreseen

### Comments regarding follow-up

## Complications

### Complications

- no (Answer "no" excludes all remaining questions.)
- yes

### Time

- early, Op-day - 28 days postop
- sub-acute, 2 - 6 months
- late, > 6 months .....

### Type

- |                                                |                                                          |                                                 |
