

## EUROSPINE Education Week 2016

*Eighty-seven spine surgeons from 31 countries attended EUROSPINE's Education Week at the world-renowned IRCAD in Strasbourg from 13–17 June 2016.*

### **Quick Facts:**

**Event title:** EUROSPINE Education Week 2016

**Location:** Strasbourg, France

**Date:** 13-17 June 2016

**Number of participants:** 87

### **Event Report:**

Delegates had the unique opportunity to participate in this live educational event with 40 distinguished faculty members from all over Europe. Pre-course materials, lectures, case-based discussions, plenary sessions and cadaver laboratory workshops all included blended learning elements. The event was a great success; summed up very well by one participant *"I'm very pleased with the workshops. It was a great experience (with) all*

*the modules and I hope every year to have the opportunity to do this practice! Thank you for the education and the practice.”*

Education Week consists of 5 modules to be completed by participants in order to obtain the European Spine Course Diploma (ESCD). The ESCD is now respected on a European level by many spinal societies and federations and is officially recognised as equivalent to the Diploma in Germany. The next Education Week will take place on 19–23 June 2017 at the IRCAD in Strasbourg.

Those who have already obtained their ESCD are eligible to attend the Advanced Courses to earn the Advanced Diploma. Modules on *Extended Indications, Advanced Operative Techniques and Complications and Management* will be offered from 9–11 January 2017 at the IRCAD in Strasbourg.
