

Name:	Georgios Alexiou, MSc MD PhD
Nationality /Country of residence:	Greece
Place of work:	University Hospital of Ioannina, Greece
Specialisation:	Neurosurgery
Member of EUROSPINE since:	2018
Observership:	Neurosurgical Department at the Klinikum rechts der Isar of the Technical University of Munich, Germany 1 September to 15 September 2019

In September 2019, I got the opportunity to visit the Department of Neurosurgery at the Klinikum rechts der Isar, Technical University Munich.

During my stay I had broad exposure to the breadth of spinal pathology with various surgical approaches to the spine.

Furthermore, I learned a lot about different operation techniques and exposed to latest technologies such as intraoperative CT scan and navigation systems that are not currently available in my Department.

In all cases I had the opportunity to scrub and I attended all clinical activities of the department.

I was very fortunate to learn from and work alongside such a great group.

I would like to thank Professor Bernhard Meyer for accepting me and giving me the opportunity to visit the Department and EUROSPINE for its extremely important support that has made all this possible.
