Overall, the course was very well received by 14 attendees from 9 countries. Teaching quality reached again a high level. A mix between lectures and working in small groups of 3-4 participants was appreciated and enhanced the overall learning effect.

The next course will take place in Dublin from 24 - 28 February, 2014!

Evaluation Summary
A Selection of Participants’ Comments

“A large amount of knowledge implemented in manageable format.”

“The course was delivered by faculty who were obviously very knowledgeable and they facilitated group discussion in a very skilled way. They were generous with their time and knowledge and were an excellent source of knowledge.”

“Congratulations to you all! Initiatives like this will lead the spine society to the real advancement of knowledge and treatment.”

“It opens the gate for research.”
