

Workshop: EDISC Conclusions

Pierre Côté

Task Force Interprofessional Spine Care

1. Does EDISC meet the needs of your society/association?

- Yes
 - Need for better communication and collaboration between specialities “speak the same language”
 - Interdisciplinarity
- eLearning will be essentials
 - As a vehicle to deliver the course/diploma is essential
- Need to engage other societies and insurance companies and payers
- Needs to be practical
- Needs to be concise (opportunity costs)
- Consider equivalency for existing skills

2. Can you identify any gaps in EDISC?

- Consider
 - Tumours?
 - Fragility fractures
- Important to geriatrics (focus)
- Emphasise the hole spectrum of care

3. How would your society/association benefit from collaborating with EDISC?

- To standardise conservative care
- Improved collaboration between surgeons and conservative health care providers
- Improve knowledge of patient management between specialities

4. How can we help promoting EDISC within your society/association?

- Spine societies are one of many groups that needs to be involved
 - Rheumatologists
 - GPs
 - Insurances
