

# Advanced Module 1

eLearning: watch expert lectures in your own time

• **Get theoretical knowledge and perspectives on advanced operative techniques and extended indications on the following regions and conditions:**

- Cervicothoracic Junction
- Thoracic Spine
- High-Grade Lumbar Spondylolisthesis and Tumour Surgery and Reconstruction & Intradural Tumours
- Adolescent Idiopathic Scoliosis (AIS)
- Lumbar Degenerative Deformities

In person case-based discussions and skills workshops:

• **Engage with expert faculty and peers discussing cases and participate in hands on workshops on:**

- Cases on various spinal conditions using advanced operative techniques
- Various surgical approaches such as posterior thoracic and en bloc vertebrectomies, cervicothoracic fixation, and PSO, Ponte Osteotomies and iliosacral fixation

Bring your Own Case: Discuss your own cases with expert faculty and peers

- Synthesise knowledge and apply it to your case and others' cases
- Identify dilemmas and issues
- Recognise and understand diverse perspectives
- Assimilate new ideas, techniques and information to apply in your own settings.
