Registration number: (please always indicate in case of correspondence) **A 2025-0042**
Entry at the Independent Ethics Committee: 13.02.2025

Dear PD Dr. med. Sae-Yeon Won,

the Chairman of the Ethics Commission at the University Medical Center Rostock has reviewed the documents you submitted on behalf of the Independent Ethics Committee.

The complete dossier is available to the Committee.

From a professional and ethical point of view, there are no objections to the implementation of the research project.

Please note that this statement does not affect the medical and legal responsibility of the project leader and the participating doctors in accordance with the advisory function of the Independent Ethics Committee.

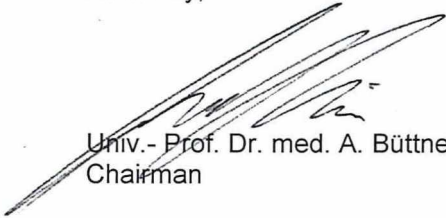

The following documents were available to us for evaluation:

1. Anschreiben vom 09.02.2025
2. Checkliste (nicht AMG-Studie)
3. Patienteninformation und Einwilligung
4. Spine Atlas Initiative data call 2025 on lumbar degenerative Spondylolisthesis (SAI-2025-LDS)

General information:

1. The ethical and legal responsibility for the conduct of this clinical trial remains with the sponsor, the clinical trial leader and the investigators.
2. Composition and functioning of the Independent Ethics Committee comply with national laws, Regulations and the ICH-GCP-Guideline as amended.
3. Data protection aspects of research projects are examined by the Independent Ethics Committee on principle only cursor-checked. This vote / this rating therefore does not replace the Consultation of the responsible data protection officer.

Sincerely,

Univ.-Prof. Dr. med. A. Büttner
Chairman

Thomas Penno
